

## 7.3 – Area of a Triangle: Using Two Different Formulas

Area of a Triangle Formula # 1	Area of a Triangle Formula # 2
<p>Area = _____ or _____</p> <p>where given <math>\Delta</math> has a _____</p> 	<p>Area = _____ or _____</p> <p>where given <math>\Delta</math> is _____</p> 

**Example 1 – Simple (One to Two Steps):** Find the area of the triangle. Round to tenth place.

<p>a.)</p> 	<p>b.)</p> 	<p>c.)</p> 
--	--	--

**Example 2 – Complex (More than Two Steps):** Find the area of the triangle. Round to tenth place.

<p>a.)</p> 	<p>b.)</p> 	<p>c.)</p> 	<p>d.)</p>
